PANCAKE DAY 2024

1. Download the PDF and print out your spinner onto an A4 sheet of paper.
2. Find a flat and stable surface, and place down the spinner.
3. Find a straight object such as a pencil, to be used as the spinner needle.
4. Place your straight object in the centre, and spin gently. Allow it to rotate freely until it comes to a natural stop.
5. Your recipe has been chosen and it's time to cook! Head to the Maple from Canada UK website for the full recipe.
6. If you need more inspiration or aren't happy with what the spinner chose for you – spin again!
